CONSTRUCTION TIRES PRODUCT BROCHURE

GRIP EX^o

BIAS EXCAVATOR
EX222

- Extra-tough tread compound for cut and impact protection
- Special tread design for optimum traction and wear life
- Advanced rubber compounds and nylon-cord body provide excellent impact resistance and long wear

GRIP EX^o

GRADER
GT222

- Superior grip and directional traction
- Long wear owing to tough sidewalls with special compounds
- Advanced compound construction provides superior durability
- Excellent traction and flotation through overlapping bar cleats

GRIP EX^o

LOADER
LT100

- Excellent tread-wear resistance on hard-surface roads
- Designed specifically for light-construction machines such as backhoes, tractors, and loaders
- Wide buttressed lugs deliver durability and long life in construction services

GRIP EX^o

INDUSTRIAL TRACTOR
R400

- Wide-buttressed lugs provides excellent durability and long tread life
- Special rubber compounds and nylon-cord body provide excellent impact resistance and long wear
- Ideal for use on concrete and soil

XPT SS^o

SKID STEER
XPT

- Super-tough tread design for outstanding traction, durability and puncture resistance in the most demanding work conditions
- Improved dual tapered step lug extends wear and life
- Heavy-duty sidewall and large curb rib deliver increased stability and greater puncture resistance
- Extra-wide lugs provide longer tread-wear and extended tire life

XPT ND^o

SKID STEER
XPT ND

- Strong lateral stability
- Uniform tread wear and long life
- Cut and puncture resistance
- Solid grip on hard surfaces

XPT^o

SKID STEER
XPT

- Tough sidewall and long wear
- Excellent traction and flotation through overlapping bar cleats and lo-pro design
- Performs in a wide variety of surface conditions

* The featured products are available as at September 2018, GRI launches 10 new products every month, following the opening of its new factory.
